PROFESSIONAL EXPERIENCE

TIDEXF | Operations

Feb 2023 - Present | Chennai

- Scaled a social media content agency from 0 to multiple paying clients, using creative AI models for end-to-end project delivery.
- Lead a cross-functional team of editors and marketers, coordinating deliverables and ensuring quality output on tight deadlines

ASSISI GYM | Fitness & Nutrition Instructor

May 2026 - Present | Chennai

- Driven by a passion for fitness, nutrition, and helping others improve their health, I took on a part-time role as a Fitness & Nutrition Instructor while pursuing my academic studies. I coached individuals in achieving their health and fitness goals through personalized guidance in strength training, nutrition fundamentals, and sustainable lifestyle habits.
- Also demonstrated strong sales conversion skills by successfully converting prospects into personal training and fitness programs through effective communication and client engagement.

PERSONAL PROJECTS

RAG-Based Auto Paper Correction System

- Achieved 90% semantic alignment with manual grading using embedding similarity and LLM evaluation.
- Built OCR extraction, embedding generation, RAG retrieval, and automated scoring pipeline.
- Validated results using curated reference answers and grading benchmarks (Python, AI/ML)

AI-Driven Behavioural Fitness Intelligence Assistant

- Developed data gathering, sanitization, and conversion workflows to guarantee precision and dependability of behavioral data for AI model development and evaluation.
- Created and refined machine learning processes for habit identification, prediction of unhealthy behaviors, and generation of intelligent nudges utilizing statistical techniques and AI-driven insights. (Javascript, HTML/CSS)

Agentic AI Investment Advisor

- Established multi-step agentic processes using crewai pipelines for automated data extraction, transformation, and analysis directly adhering to data engineering and AI development standards. Recorded model design, process logic, and performance observations to guarantee reproducibility and retention of knowledge.

SKILLS

PROGRAMMING

- Python • JavaScript • R • Data Structures
- Algorithms • Design pattern • SQL
- Object Oriented Programming

TECHNOLOGY

- Git/GitHub • VS Code • Jupyter • Azure AI Foundry

DATABASES

- SQL Server • Neo4j • PostgreSQL

OTHERS

- Data Analytics • Playwright

COURSEWORK

Algorithms and Data Structures
DBMS
Computer Systems
Data Analysis
Operating Systems
OOP Programming
Software Engineering

ACHIEVEMENTS

- Rank 37 — Techxlerate National Hackathon, BITS Goa
RAG Based User Manual Query Tool
- Top 20 — National Intel GenAI Hackathon, KPRIET Cbe
Computer Vision based Bus Announcement System for the Blind

EDUCATION

VIT, CHENNAI

M.Tech INTEGRATED IN CSE IN
SPECIALIZATION WITH BUSINESS ANALYTICS
2022 - 2027 | Chennai, Tamil Nadu
CGPA: 8.26/10
